## Our Way to Sustainability

## Community Introduction

Upon arrival to a community, the Maestro Comalero will make an introduction to community leaders to share more about the stove and its benefits, and to build trust and acceptance.

House Inspection

The Maestro Comalero will evaluate the probability of success that the family will successfully adopt the stove. **Building** 

The Maestro Comalero will install the stove and do a hands-on demonstration with the family as well as conduct a survey to be able to locate the stove in the future. 1 Week

Within one week, the Maestro Comalero will evaluate the family's satisfaction with the stove, and reiterate maintenance steps. 1 Year

After one year, we survey the family to determine the level of satisfaction, and health and economic improvements.

Annual

Annual visits over the ifespan of the stove, to check for maintenance and repair issues and proper function. STOVE TEAM INTERNATIONAL®

Maestros Comaleros (Master Stovebuilders) is supported by a grant from the Meal a Day Fund.
